

Columbia Grain International

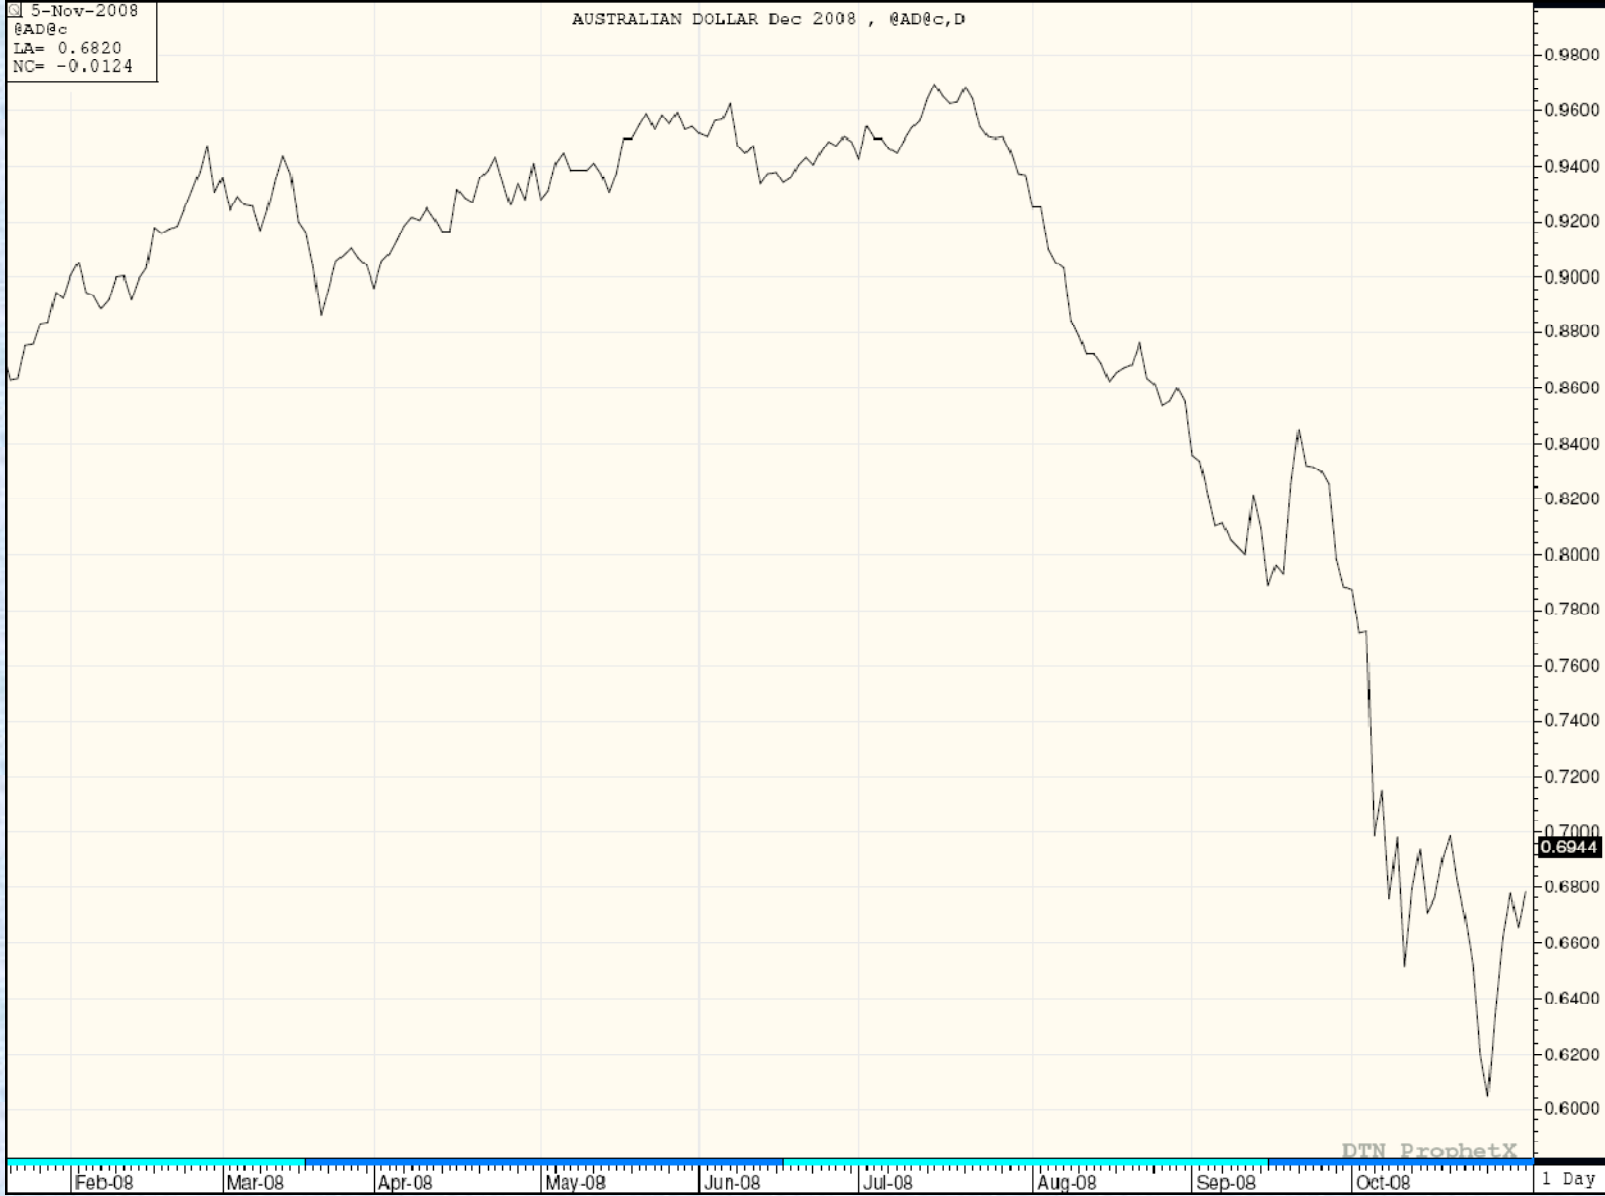

An aerial photograph of a large industrial grain processing facility. The central part of the image shows a complex of tall, cylindrical grain elevators and processing structures. To the left, a long, low-profile warehouse or storage building is visible. In the foreground, a large cargo ship is docked at a pier, with a conveyor system extending from the facility to the ship. The facility is surrounded by a mix of paved areas, grass, and some trees. A road and what appears to be a railway track are also visible in the background.
